

Great Location

The Volcano Hotel, Las Vegas, USA

11/20/2018

This hotel has an excellent central location on the strip. Ideal for walking the strip. We had a strip view room overlooking the volcano, which was great to watch from above! The room was a decent size with 2 queen beds and a table and 2 chairs. The bathroom however was extremely small. It decor has been modernised but seemed to lack something. The pool was very nice although I would have liked the water to have been a bit warmer! Decently priced hotel though for Vegas. Would stay here again due to location and pool.
