

Great location overall a nice experience with minor caveats

The Grand Central Hotel, New York, USA

10/19/2018

Overall, a nicely-appointed good mid-price hotel in Midtown. Before you book, ask for a room on a higher floor to avoid street noise. We were on 3 and had a sleepless first night. Staff moved us the next day. Also be aware that the heat isn't turned on unless it drops below 45 degrees (friendly staff shared this with us.) When we asked for heat, they brought a space heater. Cozy rest of stay - so both problems corrected. Would stay again if I had business in Midtown nearby. Wouldn't be my first choice.
