

Comfy beds great atmosphere and great location.

The Volcano Hotel, Las Vegas, USA

11/19/2018

My brother and I stayed here during Halloween weekend. We booked a volcano view room through the net for a decent price. We got to Las Vegas about 9am on Thursday morning. The hotel was able to get us right in without a moments hesitation. We checked into the room. It was quite large with a great view of the strip. The beds were like sleeping in a cloud. The bathroom was clean. The only thing we found was a couple of stains on the top sheet. We ordered room service while we were there and it was delicious. The Sun Circus show was also at this hotel. It was absolutely amazing. The bar was also fun and trendy. The only downside to the hotel was the casino wasn't very nice to me. :-)
